Welcome

This guide is a wonderful resource for those turning 18 years old as it provides helpful information about what is accessible in the community. Updated from our inaugural guide in 2017, it is designed as a checklist that you can complete at your leisure. We understand this time of life can be challenging and we hope this guide can make things a little easier during your transition. If you need further help with goal planning, we offer one on one and group workshops.
